**All Caithness Varieties are bred in the pure climate of Caithness and are nurtured to full and productive status on high-health farms in Perthshire, Fife and Angus.**

Caithness Potatoes Ltd.

Variety Information

## NADINE

### General Description

A second early variety producing high yields of uniform attractive tubers.

Excellent resistance to bruising and scab.

Resistant to potato cyst nematode Ro1 and partial resistance to pallida.

This top variety has maintained its true position as one of the top packing cultivars in the UK. A true growers variety returning top quality potatoes with little defects.

A packing variety for the UK due to low tolerance to heat stress, although will perform in some southern hemisphere markets such as Australia and New Zealand.
